

Public Disclosure of Country-by-Country (CBC) Report for fiscal year 2024 of AdsWizz RO SRL

In accordance with the provisions of Directive (EU) 2021/2101, as transposed into Romanian law, the Group acknowledges its obligation to publish specific information on a country-by-country basis. However, certain data that would otherwise be required for disclosure under these Public Country-by-Country Reporting (Public CbCR) requirements have been omitted from this report, pursuant to the exemption provided under Article 48c(6) of Directive 2013/34/EU, as transposed in the national legislation from Romania.

The decision to withhold this information has been taken on the grounds that its disclosure would seriously prejudice the commercial position of the Group. As a company operating in a highly competitive and innovative-driven market, the public release of detailed financial and operational information at a country level could result in the exposure of commercially sensitive insights, including strategic business models and pricing structures. This could, in turn, confer undue advantage over competitors and undermine the Group's ability to maintain its market position.

The omission of this data is made in good faith, in strict compliance with the legal framework, and following a thorough assessment of the potential risks and implications. The Group considers this to be a proportionate and justified measure, consistent with both the letter and the spirit of the regulation.

The Group remains committed to transparency and responsible corporate governance and will make public the information in a period of a maximum of 5 years (before 31.12.2029), according to legal requirements.
